

## Food Service Requirements

1. A FOOD SERVICE OPERATING PERMIT must be obtained from the Stone County Environmental Services office prior to opening. You may obtain a permit application through our website at ([www.Stonecountyhealthdepatment.com](http://www.Stonecountyhealthdepatment.com)), or request one through our office. The annual operating permit fee is \$100.00.
2. FOOD SERVICE PERSONNEL must be able to demonstrate knowledge of food borne disease prevention, HACCP principles and requirements of the food code. This may be demonstrated by having passed a food safety sanitation class. The classes may be accessed by going to [www.stonecountyhealthdepartment.com](http://www.stonecountyhealthdepartment.com) and following the link to [StateFoodSafety.com](http://StateFoodSafety.com).
3. IN ALL NEW OR RENOVATED facilities floor plans must be submitted to the Stone County Environmental Services office for review.
4. THE WATER SUPPLY shall be adequate, safe, sanitary quality from an approved source. The water system must be constructed, protected, operated and maintained in conformance with applicable laws and regulations.
5. HOT AND COLD RUNNING WATER under pressure shall be provided in all areas where food is prepared, where equipment and utensils are washed, and where toilet facilities and sinks are installed.
6. THE WATEWATER DISPOSAL SYSTEM shall be constructed, operated and maintained in conformance with applicable laws and regulations.
7. PLUMBING shall be so sized, installed and maintained as to carry adequate quantities of water to required locations throughout the establishment as to prevent contamination of the water supply, and to properly convey sewage and liquid waste from the establishment to the sewage disposal system so that it does not constitute a source of contamination of food, equipment, utensils, or create an unsanitary condition of nuisance. Air gaps present on dish machines, three vat sinks, food prep sinks and ice machine drain line.
8. HAND WASHING FACILITIES shall be provided and conveniently located for employees. Lavatories shall be located within the area where food is prepared.
9. UTILITY SINK or a curbed cleaning facility with a floor drain shall be provided and used for the cleaning of mops or similar wet floor cleaning tools and for the disposal of mop water or similar liquid waste.
10. FLOORS, WALLS, AND CEILINGS SHALL BE CONSTRUCTED OF SMOOTH MATERIAL. Floors which are subject to food spillage and soiling should be finished as to facilitate washing and to prevent absorption of grease or other organic material.

11. LIGHTING all areas in which food is prepared or stored or utensils are washed; hand washing areas and toilet rooms shall be well lit.
12. ARTIFICIAL LIGHTING fixtures located over, by or within food storage preparation service and display facilities and facilities where utensils and equipment are cleaned and stored must be shielded.
13. INFRARED OR OTHER HEAT LAMPS shall be protected against breakage by shield surrounding and extending beyond the bulb, leaving only the face of the bulb exposed or is shatter proof.
14. EQUIPMENT AND UTENSILS shall be so designed and of such material and workmanship as to be smooth, easily cleanable and durable and shall be in good repair.
15. A THREE COMPARTMENT SINK shall be so designed and of such material and workmanship as to be smooth, easily cleanable and durable and shall be in good repair.
16. SINKS used for manual washing and sanitizing operations shall be of adequate length, width to permit the complete immersion of the equipment. Each compartment of such sinks shall be supplied with hot and cold running water.
17. DRAIN BOARDS or easily movable dish tables of adequate size shall be provided for proper handling of soiled utensils prior to washing and for cleaning utensils following sanitizing and shall be located so as not to interfere with the proper use of the dishwashing facilities.
18. VERMIN CONTROL requires effective measures to minimize the presence of rodents, flies, roaches and other vermin on the premises.
19. WELL VENTILATED rooms where food is prepared served, or where utensils are washed. Dressing or locker rooms, toilet rooms, garbage and rubbish storage areas shall be well ventilated.
20. ALL GARBAGE AND RUBBISH containing food waste shall be kept in leak proof nonabsorbent containers, which shall be kept, covered with tight-fitting lids when filled or stored or not in continuous use.
21. Toilet facilities shall be conveniently located and provided with mechanical ventilation.
22. FIRE PROTECTION facilities located within the Southern Stone County Fire Protection District must comply with applicable rules and regulations.
